## Preparation for a Spider Treatment to your Home

### Exterior Only:

Spider Treatment to the exterior of your home including retaining walls, grounds area, clothesline/letterbox and fence line of your home.

1. Access will be required into your backyard, if you have a lock on your gate can you please unlock it.
2. Vacate your home whilst we treat around the exterior of your home (approximate duration 20-30 minutes).
3. You may either take Dogs (Pets) with you for the short period of time OR they must be tied up outside away from your home and our technician will release them upon completion.
4. To assist with the effectiveness of the treatment, leave spider webs in place prior to and for approximately 3 weeks after application.
5. Close all windows.
6. Take Clothes off the clothesline.

### Interior & Exterior Treatment:

Further to the above points regarding treatment to the exterior of your home, Spider Treatment to the interior of your home including the Roof Void requires:

1. Vacate your home whilst we treat the interior and exterior of your home, you may re-enter your home once the treatment has dried (approximate duration 2 hours).
2. If you have pet fish please cover the tank/bowl with gladwrap and a towel to catch any mist. Upon return to your home put the towel straight into the wash.
3. Take open food sources off kitchen bench - put in cupboards (I.E. Fruit Bowl)
4. Put toothbrushes away in bathroom cupboard.
5. Put away young children's toys or cover with an old sheet/towel.
6. After the Spider treatment please wipe food preparation areas prior to use.
